

MESSAGE FROM THE PREMIER OF ALBERTA

On behalf of the Government of Alberta, it is my pleasure to welcome everyone to the 2019 NACE Northern Area Western Conference.

Corrosion management plays an important role in protecting people and the environment. Corrosion management is of particular interest to many industries in Alberta, which has important implications for our economy. I appreciate the National Association of Corrosion Engineers for the work you do to enhance value, ensure safety, and help reduce costs and waste.

As you gather to discuss corrosion management as part of the circular economy, I hope you will be inspired by the many panels and by each other. The new ideas and fresh insights you come away with will have a practical impact on all our lives through the infrastructure we rely on every day.

Thank you to the organizers, volunteers and sponsors for your efforts to welcome NACE delegates to Calgary and make this event a success. Best wishes for a productive and informative conference.
